Subject: GoToWebinar: HRSD's Sustainable Water Initiative for Tomorrow (SWIFT) Update

Hello,
Please join us for an update on the Sustainable Water Initiative For Tomorrow (SWIFT).

Please register for Sustainable Water Initiative for Tomorrow (SWIFT) Update on Oct 26, 2016 12:00 PM EDT at:

<https://attendee.gotowebinar.com/register/3984637114212244740>

In an effort to facilitate effective and efficient discussions and meetings related to HRSD's Sustainable Water Initiative for Tomorrow (SWIFT), HRSD began hosting a webinar series in the Spring of 2016. The overarching goal of the webinar series was to provide perspective on what is happening in the water reuse arena. The webinar series featured national experts sharing their knowledge, experience and insights related to applications of water reuse in North America and around the world.

This final webinar of the series will feature Dr. Charles Bott and Ted Henifin. Dr. Bott will discuss the progress of HRSD's advanced water treatment pilot testing taking place at HRSD's York River Treatment Plant. Mr. Henifin will reflect on the SWIFT progress to date and discuss the next steps needed to realize the portfolio of benefits that implementing SWIFT will bring to the region.

After registering, you will receive a confirmation email containing information about joining the webinar.
